

Inspire Young Scientists!

Volunteer for Chemistry Day Event at Impression 5

Saturday October 24, 2026

(accessible by CATA bus or car)

Help bring science to life at a fun, family-friendly community event! You'll lead an interactive demo or activity that sparks curiosity and excitement for visitors of all ages.

Sign up with a friend or on your own – we'll help you find a group, brainstorm ideas, and provide materials. Just plan to attend one short meeting in late-September and a few flexible evening practice sessions with your group.
