Event - Narrative and Nomination																																																
Event Description	We began to use our IPG and visited three local elementary classrooms (Donley Elementary, Red Cedar Elementary and Bennet Woods Elementary) to put on interactive demos. The four demos were burning salts, fluorescence/phosphorescence, dry ice and liquid nitrogen. All teachers were very pleased with the events and the students were very engaged. We provided gift bags for students including MSU pencils, bracelets and notebooks and a pair of safety goggles. All teachers invited us to return next year. Four visits were scheduled, one science night and three individual classroom visits. In total over 200 children participated in our demonstrations.

Event - Evaluation	
Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	8
What were the greatest successes of this event?	Children asked many questions and had a very enjoyable time watching the demos.
Lessons Learned/Suggestions to improve this event	We had one demo where we let a couple children help with a hands-on portion. In the future it would be nice to have one demo where all kids could participate.

Event - Narrative and Nomination																																																		
Event Description	The YCC hosted a public viewing of a number of world cup games this summer. Our goal was to increase our awareness among international students within the chemistry department. The events were well attended with an average of 20-30 people attending each game with light refreshments being provided by the group. The event was well received.

Event - Narrative and Nomination																																																				
Event Description	YCC sponsored it's second annual welcome breakfast for incoming chemistry graduate students. The event went even better than last year with many new graduate students asking questions about our group. We once again managed to stir up interest and have 6-10 interested incoming students attending meetings.																																																			
Self Nomination for ChemLuminary Awards	<input type="checkbox"/>

Event - Narrative and Nomination																																																		
Event Description	The YCC has taken an annual role in helping to fund and host a social night during our orientation week for new graduate students. During this event new graduate students in the chemistry Department at MSU are introduced to current students, employees and faculty of the chemistry department in a relaxed setting. Food was provided and the event once again was a success.

Event - Narrative and Nomination																																																
Event Description	As a means to help increase presentation skills among graduate students and post-docs in our department the YCC advertised to host seminar practice panels for upcoming talks. We had five students take advantage of this offer for literature seminars. The panels consisted of 1-2 people from each area of chemistry as a way to diversify the knowledge and ability of the speakers. All students who participated were very pleased with the feedback they received and agreed that it was helpful. All students also agreed after their actual presentation that the input they received was pivotal in their success.																																															
Self Nomination for ChemLuminary Awards	<input checked="" type="checkbox"/>

Event - Evaluation	
Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	7
What were the greatest successes of this event?	This program let speakers get insight from various chemistry backgrounds as to what constitutes a successful talk. All participants agreed it was helpful and were glad they were part of the program.
Lessons Learned/Suggestions to improve this event	We need to get more faculty support in order to increase the number of participants.
Share this event as a best practice	<input checked="" type="checkbox"/>

Event - Narrative and Nomination																																																
Event Description	A total of 50-60 boy scouts came to MSU to earn their chemistry merit badge. Each scout went through 5 different experiments, which included a titration lab, laser tour, electrochemistry lab and a separation science lab. Scouts also got to watch a few demonstrations and speak with chemists from industry and academia about their careers. Lunch was provided to the students as well. Overall the feedback was very positive with many of the scout troop leaders expressing interest in continuing this event next year.

Event - Evaluation	
Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	8
What were the greatest successes of this event?	This was the first year our group ran this event and it went very smoothly. All events went well and all scouts earned their chemistry merit badges.
Lessons Learned/Suggestions to improve this event	This is a large event logistically speaking and it was the first year our group ran the event. An improved website for registration and more publicity will help increase attendance next year.
Share this event as a best practice	<input checked="" type="checkbox"/>

Event - Narrative and Nomination																																																				
Event Description	MSU YCC participated in this year's science Olympiad held at MSU. Matt Nethercott organized the event and the rest of the members helped prep for the day and helped oversee that the student's questions were answered and that the event ran smoothly.

Event - Evaluation	
Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	4
What were the greatest successes of this event?	The YCC group that proctored the event was very organized during the event and moved through all activities and grading quickly and smoothly.
Lessons Learned/Suggestions to improve this event	The experiment did not go well do to a protocol issue. We should have tested the experiment before letting the competitors try it themselves.

Event - Narrative and Nomination																																																
Event Description	Two groups of chemistry classes from St. John's came to MSU for field trips to various places on campus. During their visit they stopped by the chemistry department in order for our group to put on demonstrations for them. We provided demos which taught reaction kinetics, periodic table trends, bonding interactions and general lab safety. The kids enjoyed the activities and the teachers expressed interest in making this a yearly activity. This visit included 75 high school students.

Event - Evaluation	
Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	9
What were the greatest successes of this event?	All high school students appeared interested in the demos and we even had one demonstration where all the students got to participate.
Lessons Learned/Suggestions to improve this event	A larger variety of demos and reserving labs instead of classrooms would make the event better.

Event - Narrative and Nomination																																																				
Event Description	As a way of increasing interest in the new school year, our group hosted a game night for all graduate students. Students brought various games associated with their specific culture and refreshments were provided by YCC. 20-30 people attended the event from multiple nationalities and chemistry backgrounds.

	<input type="checkbox"/> Divisional Activities Committee <input type="checkbox"/> Recognition of Innovation and Outstanding Service to Members of a Division

Event - Evaluation	
Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	8
What were the greatest successes of this event?	The event offered the graduate students a chance to relax one last time before the school year got into full swing. It was well attended by new graduate students and international students.
Lessons Learned/Suggestions to improve this event	Offer the event more often.
Share this event as a best practice	<input checked="" type="checkbox"/>

Event - Evaluation	
Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	10
What were the greatest successes of this event?	The group raised awareness for the YCC and Chemistry Day at Impression 5 among undergraduates attending Michigan State University.
Lessons Learned/Suggestions to improve this event	Offer other options during the bake sale like chemistry magnets, shirts or other items.
Share this event as a best practice	<input checked="" type="checkbox"/>

Event - Narrative and Nomination																																																				
Event Description	The YCC hosted our yearly food drive once again. This year we had a fewer donations than in the past, however we still managed to donate over 350 lbs to a local food bank. Future plans for the food drive is to increase participation is to try to hold a contest between departments on campus including biochemistry, chemistry and physics.																																																			
Self Nomination for ChemLuminary Awards	<input type="checkbox"/>

Event - Narrative and Nomination	
	<input type="checkbox"/> Divisional Activities Committee <input type="checkbox"/> Recognition of Innovation and Outstanding Service to Members of a Division

Event - Evaluation	
Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	8
What were the greatest successes of this event?	We managed to raise 350 lbs of food for a local food bank.
Lessons Learned/Suggestions to improve this event	We need to improve the competition aspect to increase donations. Next year we can try to get other departments to try and participate to increase donations.
Share this event as a best practice	<input checked="" type="checkbox"/>
