Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	8
What were the greatest successes of this event?	This was a successful event, even though we did not meet our fundraising goal of \$1000. We thought we would get donations from department faculty and staff, but I believe all of the donations we received for the event were from friends and family.
Lessons Learned/Suggestions to improve this event	In the future, we will need to evaluate whether to lower our fundraising goal or to find alternate methods of soliciting donations.

What were the greatest successes of this event?	Group activities and role playing gave participants the opportunity to apply the negotiation techniques that were discussed. Many participants commented on how helpful they thought the analysis and tips on self-presentation were.
Lessons Learned/Suggestions to improve this event	The workshop was broken into morning and afternoon sessions to accommodate participants with different schedules. Some participants thought the activities and presentations seemed rushed, and would have appreciated more time. Perhaps one full day workshop would be best if we host this type of even in the future.
