

Michigan State University Chemistry Day at Impression 5 Event Form 2012

Event - Overview							
Name of the Event*	Chemistry Day at Impression 5						
Brief Description*	On Saturday, October 27, 2012, The MSU Local Section celebrated NCW with our 26th annual Chemistry Day at Impression 5 event. Approximately 1000 people visited the event and experienced hands-on activities and chemical demonstrations that explored nanotechnology. Thanks to a generous donation from Emergent BioSolutions, admission to Impression 5 was free!						
Organization*	Michigan State University						
Year Held*	2012

Michigan State University Chemistry Olympiad Event Form 2012

Event - Overview							
Name of the Event*	Chemistry Olympiad						
Brief Description*	A total of 81 students from the following high schools participated: Carman Ainsworth, East Lansing, Haslett, Grand Ledge, Holt, and Okemos. The day began with a two hour written exam followed by a Chemical Demonstration Show by Paul Hunter and an awards ceremony. Mayank Patke (Okemos) had the highest score. He received a cash award of \$100 from the local section. Martina Hu (Okemos) finished second and earned a cash awards of \$75. The top ten finishers received copies of the Merck Index.

Event - Narrative and Nomination

Award Sponsor: Project SEED

Award: Outstanding Project SEED Program Award

Award Nomination Status: Complete

Question 1	Has the program followed the "Guidelines" set by the Committee on Project SEED? (i.e. comply with the eight-to-ten weeks period, provide safety training and career counseling, submit reports and surveys by the deadlines, submit clear application.)
Answer	YES! The program lasted for 8 weeks (June 18 to August 17 2012). Safety training was provided through the MSU-ORCBS on line Chemical Safety Course (before the students started working). After joining a research lab every student was trained on site on the specific safety rules of each lab, based on the particular techniques involved in each lab. Career counseling was provided both by each mentor as well as by the program coordinators during the scheduled weekly group meeting all participants had to attend. The coordinators made sure that all reports, applications and surveys were submitted on time.
Question 2	How many students participated last summer?
Answer	We had 8 Summer I students (Chosen from around 20 eligible applicants)
Question 3	How much was the stipend amount contributed and its percentage to the total stipend?
Answer	ACS contributed \$3,000 out of the \$20,000 necessary for the students' stipends (15%). The rest of the money was raised through local MSU sources (Office of Vice president, College of Natural Science: Dean's Office; MSU: Office of the Provost).
Question 4	Describe all special activities where the Project SEED students participated.
Answer	The participating students had to attend a weekly group meeting, where they had to present their research and explain it to the rest of the group. These meetings were very interactive and the presentations were followed by a Q&A section when everybody could ask anything they wanted and usually acted as a career counseling opportunity, too. Furthermore, the students had to present their work during a poster session, open to the whole Michigan State University chemistry department. The students had to prepare their poster and explain it to the visiting audience for a 2 hour session. In addition to these Project-SEED coordinated activities, the students had also the option to participate in the actual research group meetings of the research group they were working with (this participation was optional but many students chose to attend these meetings).
Question 5	How many of the Project SEED students applied for the Project SEED College scholarship and how many won the award?
Answer	Since all participating students this year were Summer I students, none of them were eligible for the Project SEED College scholarships.

Michigan State University Midwestern Symposium on Undergraduate Research in Chemistry (MSU-R:CHEM 2011) Event Form 2012

Event - Overview							
Name of the Event*	Midwestern Symposium on Undergraduate Research in Chemistry (MSU-R:CHEM 2011)						
Brief Description*	MSU-R:CHEM 2011 was held Oct 5-6th, 2012 in Dept of Chemistry at MSU. 40 undergraduate researchers (including 34 non MSU students) and 7 non MSU Faculty participated in the event. No conference fee was charged to attendants. The Symposium was designed to increase the number of domestic applicants to graduate programs, including those from underrepresented minority. Multiple events provided possibilities for interaction with graduate students and faculty.						
Organization*	Michigan State University						
Year Held*	2012

Which strategic goal(s) from the ACS Strategic Plan does this event support?	<input type="checkbox"/> 1. Provide Information. Be the most authoritative, comprehensive, and indispensable provider of chemistry-related information. <input type="checkbox"/> 2. Advance Member Careers. Empower an inclusive community of members with networks, opportunities, resources, and skills to thrive in the global economy. <input type="checkbox"/> 3. Improve Education. Foster the development of the most innovative, relevant and effective chemistry education in the world. <input type="checkbox"/> 4. Communicate Chemistry's Value. Communicate chemistry's vital role in addressing the world's challenges to the public and policymakers.						
Event Phase*	Completed						
Event Frequency*	Annual						
Event Date Selection	From 10/5/2012 To 10/6/2012

Event - Narrative and Nomination

No award(s) are nominated for this event.

Event - Evaluation

Evaluate the success of the program on a scale of 1-10 (1-least successful & 10-most successful)	10
What were the greatest successes of this event?	Unique for an undergraduate symposium, there were 4 graduate students' presentations and a poster session presented by the current graduate students. This provided possibilities for undergraduate researchers to interact with graduate students, ask research and related questions, and, ultimately, to envision themselves in graduate school. The tour of instruments and research laboratories helped undergraduate researchers to immerse in everyday life of graduate students.
Lessons Learned/Suggestions to improve this event	
Share this event with other local sections and technical divisions.	<input checked="" type="checkbox"/>
